- Onsite training

Strapping Machines

TP703VLM

Fully automatic pallet strapping machine designed for vertical strapping.

- Siemens PLC control and HMI
- Movable strap lance
- Friction weld sealing technology

TP702BP

Fully Automatic Strapping Machine with Compression Press

- Robust and compact strapping head
- Free access to strap guides
- Electronic Tension Control

Carton Sealers

SB-2EX

- Plug-in and go operation
- Fast and easy box size changes
- Interchangeable top & bottom tape cartridges
- Adjustable leg extensions
- Low maintenance
- No compressed air required

RTD ROTARY TOWER DELUXE

STAB-L-IZE™ 5000 LPS

Stretch Wrappers

A wide range of durable, rugged and highly reliable stretch wrapping machines to help you protect your valuable product. Let us help you determine the best machine for your application and budget. Depending on your product and pallet wrapping needs, AT Packaging offers semi and fully automatic models in turntable, rotary tower and orbital configurations.

➤ RTD ROTARY TOWER

- No Maximum Load Weight Capacity
- High Performance Film Delivery Carriage
- Multiple Wrap Recipes Can be Programmed

➤ STAB-L-IZE™ 5000 LPS

- 16 RPM Variable Speed
- 5,000 lb. Maximum Load Weight Capacity
- Built-in scale with digital weight display
- 3 Programmable Wrap Recipes

Stretch Film

Available in traditional cast and blown manufactured products our full line of stretch films includes a complete variety of widths and gauges for hand or machine stretch film. These products provide an efficient and cost-effective solution for primary packaging and unitization.

Strapping

- Features low maintenance and trouble-free strapping processes
- Offers reliable protection of your packaged goods
- Is the economically and technically best solution for your application
- Offers a smart supply management (from order placement to delivery)

Type	Benefits
Polypropylene	· Ideal running characteristics, · High availability of the strapping process, · Ideal for fully automatic applications
Polyester	· Protects the health and safety of your staff – no risk of injuries caused by the strapping, · Easier & safer to handle, · Closure without clamps, · No damage to the packaged goods, · No staining of the goods because of rust, · Higher remaining strap tension

We create Alternative Technology

Since 1986, AT Packaging has contributed to many cost savings in the Packaging Industry by offering alternative technologies which benefits to all its partners.

Always looking for technological inventions applicable in Today's Industry, AT Packaging has tremendous technical capabilities to realize all your packaging projects.
